UK National Allocation Plan for the EU Emissions Trading Scheme

This consultation paper is published following the submission of the National Allocation Plan (NAP) to the European Commission on 30 April 2004. This is the third part of an ongoing consultation process with the public, industry and other stakeholders on the UK National Allocation Plan under the EU Greenhouse Gas Emissions Allowance Trading [Directive](#).

We announced on 29 March that because of the need to incorporate comments raised during consultation on the draft NAP, we would be delaying submission of the NAP to the Commission by a few weeks after the deadline of 31 March. In order for us to incorporate comments from stakeholders prior to the Final Allocation Decision in October 2004, we are having to limit the time to respond to this consultation to four weeks.

This consultation will therefore close on Thursday 3 June 2004 at 5pm. The responses will then be analysed and fed into the revision of the sector and installation level allocations to be published in late July/early August 2004.

Please see the documents below for further information and details:

- [Consultation letter](#)
- [Consultation list](#)
- Consultation paper is available later today
- [UK National Allocation Plan](#)  (463 KB)
- [List of installations](#)  (372 KB)
- Regulatory Impact Assessment (to be published by noon on 12 May)

Responses to this consultation document should be clearly marked 'NAP consultation' and sent by email to eu.ets@defra.gsi.gov.uk or by post to:
